

org.zerock.service.UserService
Impl.registerUser

org.zerock.service.UserService
Impl.updateEmail

org.zerock.mapper.UserMapper.check
Email

```
graph LR; A[org.zerock.service.UserServiceImpl.registerUser] --> C[org.zerock.mapper.UserMapper.checkEmail]; B[org.zerock.service.UserServiceImpl.updateEmail] --> C;
```

The diagram illustrates a mapping between two service methods and one mapper method. On the left, there are two white rectangular boxes. The top box contains the text 'org.zerock.service.UserService' followed by 'Impl.registerUser' on a new line. The bottom box contains 'org.zerock.service.UserService' followed by 'Impl.updateEmail' on a new line. On the right, there is a gray rectangular box containing 'org.zerock.mapper.UserMapper.check' followed by 'Email' on a new line. Two blue arrows point from the right side of the top white box to the left side of the gray box, and from the right side of the bottom white box to the left side of the gray box.
