

org.zerock.service.UserChallenge
Service.duplicateUserChallenge

org.zerock.controller.User
ChallengeController.getUserChallenge
Details

org.zerock.controller.User
ChallengeController.joinChallenge

org.zerock.service.UserChallenge
Service.getUserChallengeDetails

```
graph LR; A[org.zerock.service.UserChallengeService.duplicateUserChallenge] --> D[org.zerock.service.UserChallengeService.getUserChallengeDetails]; B[org.zerock.controller.UserChallengeController.getUserChallengeDetails] --> D; C[org.zerock.controller.UserChallengeController.joinChallenge] --> D;
```

The diagram illustrates three source methods on the left, each with a blue arrow pointing to a single target method on the right. The target method is highlighted with a gray background. The source methods are: 1. org.zerock.service.UserChallengeService.duplicateUserChallenge (top), 2. org.zerock.controller.UserChallengeController.getUserChallengeDetails (middle), and 3. org.zerock.controller.UserChallengeController.joinChallenge (bottom). The target method is org.zerock.service.UserChallengeService.getUserChallengeDetails.
